About us

Nanyang Venture Formula (NVF) Racing is Nanyang Technological University's (NTU) very own Formula Student team, which was set-up in 2020 in collaboration with Nanyang Venture, NTU's premier team for eco-efficiency vehicles.

Under the guidance of Professor Ng Heong Wah, NVF Racing's 20+ strong team, composed of students from the College of Engineering and Nanyang Business School, aim to manufacture, test and race a fully functional electric powered race car.

Building upon the experience and expertise acquired from Nanyang Venture and the recent Formula Student UK Competition, we believe NVF Racing has the potential to achieve great success in the coming years.

What is Formula Student?

Formula Student (FS) is a prestigious student engineering competition, where teams from around the world design, manufacture and race a small-scale Formula-style single seater race car.

This year's competition was held at the **legendary Silverstone Circuit** in Northamptonshire, England, and saw over 80 teams go head-to-head in a series of static and dynamic events, with the aim of being crowned champions against top engineering teams in the world.

As a newly formed FS team in NTU, NVF Racing has launched our maiden race car at the Formula Student UK (FSUK) 2023 competition, making us the first FS team from Singapore and SEA to compete at this competition.

We achieved a commendable performance as a rookie team, as evidenced by our inaugural year's results.

Passed **Tech** and **Safety** Inspection

How can we help you?

1. **Brand Advertising** : Allow us to showcase your company at the global stage, at one of motor sport's most iconic and storied circuits
2. **Recruitment Opportunities** : Gain access to a growing pool of highly motivated and talented engineers, who have valuable practical experience in various facets of engineering
3. **Test-bed for your product** : Test your products in a realistic high stress environment, and we will provide feedback on product performance according to your requirements and specifications
4. **Tax Deductions** : Donations to the team are qualified for a 2.5x deduction on the quantum of the gift

2023 - 2024 Budget Projections

~\$160,000

NVF Racing is seeking monetary and in-kind partnerships to enhance the longevity of our team, and we would like to take you on this ride together with us! In the upcoming academic year, we invite prospective sponsors to join us in supporting our project, which requires a total funding of **\$160,000** from start to finish.

Our long-term goal is to become a **world-class Formula Student team**, and to continue to provide this valuable and rewarding experience to our growing engineering community here in NTU.
